50 8x10 show fliers

package price: call for pricing as weekday and weekend prices do vary

We also offer entertainment packages that DO NOT include sound, stage and lights as some establishments have their own system in place. While these packages are available, please remember that the overall success of the show depends heavily on a professional set up to ensure a fantastic show. Often an “in house” sound system may not meet the industry standards to ensure guests can hear and enjoy the show properly. Our sound operator is present during the entire show to ensure proper sound and lighting quality. We also bring a back up sound system to every show to ensure your show is never interrupted due to technical difficulties. (back up system only provided when you purchase full service package including sound, stage and lights)

We also encourage the establishment to invest in advertising to help promote the show.

Newspaper, Television, Radio and other media outlets are crucial in getting the word out there that your establishment is offering live comedy!!! Once the guests see the advertising along with the credits of our performers your business telephone will begin to ring with reservations for the show!

We encourage you to be creative in offering packages that may include dinner and the show. Some hotels we work with also offer combo packages that include accommodations, dinner and the show for a flat rate. Many establishments also prefer to charge a modest and reasonable cover charge to offset the cost of entertainment. Please remember that at “Crazy” Gene’s Comedy, **We never keep any of the cover charges you collect for the show.** We charge a low flat rate for our packages and you keep the cover, food revenue and bar revenue generated during the show.
